Dear [MP's name],

I am one of your constituents, and I'm writing to you because I am very concerned about conscience protection for health care workers.

I believe no one should be compelled to participate in the taking of a human life.

Pharmacists, doctors, nurses and others must have the right to refuse to participate in medical assistance in dying for reasons of conscience, either directly or indirectly, including the right not to have to make a referral.

I'm asking you to support private member's Bill C-418. This bill will make it a criminal offence to compel a health care professional to participate in medical assistance in dying. It would also make it an offence to fire or refuse to hire a health care worker because of their conscientious objection.

Bill C-418 would provide strong, specific conscience protection for Canadian health care workers.

Please let me know whether you support this bill and how you will represent my concerns to your colleagues.

Sincerely,

[Your name]
