Sample letter for concerned citizens

[date]

Dear [MP's name],

Thank you for your hard work for our community.

I'm writing because I'm very concerned about the need for conscience protection for health care workers, especially as medical assistance in dying is expanding more and more. Doctors could be asked to help end the lives of patients who aren't dying or who have mental illness alone.

No one should be forced to participate in ending the life of a patient, against their conscience or deeply held beliefs.

I'm asking you to support private member's Bill C-230. This bill would make it illegal to force doctors and other medical professionals to take part in MAID.

Bill C-230 would provide strong, specific conscience protection for Canadian health care workers.

Please support this bill and communicate my concerns to your colleagues.

Sincerely,

[your name]
