Sample MP communication

Dear [MP's name],

Thank you for working hard for our community.

I am writing to ask you to support Bill C-270. This bill would require commercial pornography sites to verify that the people shown in videos or pictures are over 18 years old and that they consent to have their images posted.

Images of children and young teens are being posted on pornography websites. Intimate images are being posted without a person's knowledge or consent. This bill will put the responsibility on commercial pornography sites to verify the age and consent of a person before their image is posted.

Please let me know what steps you will take to support Bill C-270 and to stop sexual exploitation online.

Sincerely,
[your name]
[your address]
