Sample letter/email for concerned citizens

[date]

Dear [MP's name],

I am one of your constituents. Thank you for serving our community in Parliament.

I am very concerned to hear that federal funding for programs to help victims of human trafficking and sexual exploitation has ended.

I understand that programs at 13 organizations across Canada that have helped thousands of women and girls escape paid sexual exploitation will have to close as a result. This will have a devastating result on victims of exploitation and trafficking.

Canada has been at the forefront of taking action against human trafficking. It is critical to offer support and services to protect and rehabilitate victims and survivors. I urge you to continue to fund these kinds of programs.

Please let me know how you plan to act on my concern.

Sincerely,

[your name]

[your address]
